Volume Contents

NUMBER 1

v Softstrip® data strip containing the table of contents for this issue

Vijay Kumar — 1 A study of the behavior of the read:write ratio under two-phase locking schemes

Anthony N. Godwin, Joseph W. Gleeson and **Dean Gwillian** — 13 An assessment of the IDEF notations as descriptive tools

Hans-Joachim Klein — 29 Pragmatics and semantics of NQL, a descriptive query language for network databases

S. K. M. Wong, W. Ziarko, V. V. Raghavan and **P. C. N. Wong** — 47 Extended Boolean query processing in the generalized vector space model

Dan A. Simovici and **Dan C. Stefanescu** — 65 Formal semantics for database schemas

Sergio Greco and **Pasquale Rullo** — 79 Complex-Prolog: a logic database language for handling complex objects

Short Note

Safa M. Alak and **Muhsen Shalef Chiad** — 89 Storage structure design of CODASYL DBMS using spreadsheet programs

I News Section

NUMBER 2

iii Softstrip® data strip containing the table of contents for this issue

Paolo Ciaccia, Dario Maio and **Paolo Tiberio** — 93 A method for hierarchy processing in relational systems

H. R. Cho, S. J. Park and **E. Hevia** — 107 An approach to efficient database design incorporating usage information

Meichun Hsu and **Stuart E. Madnick** — 117 Hierarchical timestamping algorithm

Christos Faloutsos and **Winston Rego** 131 Tri-cell—a data structure for spatial objects

Raya Fidel and **Michael Crandall** 141 Fitting reality into a database mold: rules for data collection

S. Christodoulakis, Y. Manolopoulos and **P.-Å. Larson** 151 Analysis of overflow handling for variable length records

F. Cuppens and **R. Demolombe** 163 How to recognize interesting topics to provide cooperative answering

Udo Kelter 175 Deadlock-freedom of large transactions in object management systems

181 Reports and Theses

I Software Survey Section

NUMBER 3

iii Softstrip® data strip containing the table of contents for this issue

A. D'Atri, P. Di Felice and **M. Moscarini** 195 Dynamic query interpretation in relational databases

Kweku Ewusi-Mensah 205 Evaluating information systems projects: a perspective on cost–benefit analysis

Jiawei Han 219 Multi-way counting method

Leo Mark 231 A graphical query language for the Binary Relationship Model

Sudha Ram and **Stephen M. Curran** 247 An automated tool for relational database design

S. Ceri, B. Pernici and **G. Wiederhold** 261 Optimization problems and solution methods in the design of data distribution

273 Reports and Theses

I News Section

V Software Survey Section

NUMBER 4

iii Softstrip® data strip containing the table of contents for this issue

Kees M. van Hee, Geert-Jan Houben and **Jan L. G. Dietz** 277 Modeling of discrete dynamic systems—framework and examples

Kazimierz Subieta and **Marek Missala** 291 View updating through predefined procedures

M. Levene and **G. Loizou** 307 NURQL: a nested universal relation query language

Tetsuro Ito and **Makoto Nakashima** 317 Modification of a multilevel indexed descriptor file

Thomas Mück and **Günther Vinek** 327 Modelling dynamic constraints using augmented place transition nets

Danièle Gardy, Philippe Flajolet and **Claude Puech** 341 Average cost of orthogonal range queries in multi-attribute trees

Pankaj Goyal 351 Intelligent information systems: the concept of an intelligent document

I News Section

III Software Survey Section

NUMBER 5

iii Softstrip® data strip containing the table of contents for this issue

Jiang-Hsing Chu and **Gary D. Knott** 359 An analysis of B-trees and their variants

Edward Omiecinski 371 Concurrent file conversion between B^+-tree and linear hash files

Pai-Cheng Chu 385 Database access path selection: a two step approach

Siegfried Treu, Paul Mullins and **Joel Adams** 393 A network-wide information system: multi-level context for the user at the workstation interface

E. Bertino, M. Negri, G. Pelagatti and **L. Sbattella** 407 Integration of heterogeneous database applications through an object-oriented interface

Sang Hyuk Son 421 An algorithm for non-interfering checkpoints and its practicality in distributed database systems

Mohammad Dadashzadeh 431 An improved division operator for relational algebra

Short Note

David A. Goldberg and **Ali Orooji** 439 Independent revocation of access rights in database management systems

NUMBER 6

FUZZY DATABASES

Didier Dubois, Henri Prade and **Elie Sanchez**	vii	Editorial
Janusz Kacprzyk, Sławomir Zadrożny and **Andrzej Ziółkowski**	443	FQUERY III+: a "human-consistent" database querying system based on fuzzy logic with linguistic quantifiers
Elie Sanchez	455	Importance in knowledge systems
R. Vandenberghe, A. Van Schooten, R. De Caluwe and **E. E. Kerre**	465	Some practical aspects of fuzzy database techniques: an example
Maria Zemankova	473	FILIP: a fuzzy intelligent information system with learning capabilities
Inaki Arrazola, Agnès Plainfossé, Henri Prade and **Claudette Testemale**	487	Extrapolation of fuzzy values from incomplete data bases
P. Bosc and **M. Galibourg**	493	Indexing principles for a fuzzy data base
John T. Dockery and **Edward Murray**	501	Fuzzy linguistic data bases: an application
Bill P. Buckles, Frederick E. Petry and **Yuet-Ying Cheung**	507	Attribute grammars for the heuristic translation of query languages
	I	Softstrip® data strip containing the table of contents for this issue
